Level 1 – Semester 2

Assignment 01 (CSS)

1) Using notepad or any text editor, write a suitable code to create a simple web site for a hotel

The minimum requirements for the web site are as follows.
   a) The hotel logo and name should be included in the header section.
   b) There should be four web pages as HOME page, FACILITIES page, OFFERS page & CONTACT page.
   c) Save the created html pages as follows,
      - HOME page-index.html
      - FACILITIES page-facility.html
      - OFFERS page-offers.html
      - CONTACT page.-contact.html

   d) Link those web pages to HOME page.
   e) Use external style sheets and save the style sheets as stylesheet1, stylesheet2… likewise (You can use styles as you wish)
   f) Insert suitable images to your web site.
   g) Include same footer to all pages.

Sample structure is given below. You can include content relevant to the topic.

Hotel logo and name			
HOME	FACILITIES	OFFERS	CONTACT
Footer
